## Consultation

A safety and health audit by an experienced occupational safety and health professional can help you identify hazards and reduce or eliminate the risk of injuries and illnesses.

- Your business receives confidential, no cost consultation.
- No penalties assessed.
- Hazard recognition.
- A written report.
- Assistance in correcting hazards.
- Assistance in developing safety and health programs and enhancing safety culture.
- Development of an in-house inspection plan.
- Sample plans and checklist.
- Air and/or noise monitoring at your workplace.
- Identification of training needs.

*All imminent danger and serious hazards must be corrected as a requirement of the visit.*

## On-site Training

SafetyWorks! professionals can train you and your employees on a wide range of safety and health topics — at no cost to you.

**Training on most construction and general industry topics such as:**

- 10-Hour OSHA Classes.
- Lockout/Tagout.
- Trenching/Excavation.
- Fall Protection.
- Scaffolding.
